

Mondial IT:

Implementing Methodologies that Ensure Maximum ROI for Clients

During the last five years, enterprise asset management has evolved to meet the growing demands of the market. To combat challenges of maximizing lifecycle performance of assets, organizations are now turning towards smarter physical infrastructure that integrates process and data throughout asset lifecycle. Enterprise asset management solutions are an important part of asset-intensive industries as the solution facilitates optimum utilization of resources, improve efficiency, and maximize the return of asset. These factors are expected to drive the growth of the global enterprise asset management market in the coming years. Mondial IT, headquartered in Mumbai, Maharashtra, assists firms to evaluate and select IT Solutions, manages the implementation of the solution, and facilitates all related organizational changes to ensure that clients realize the full business benefits from their IT Solutions and justify the ROI. “The company specializes in offering solutions towards Enterprise Asset Management, Expense Management, Budgeting & Planning, Financial Management and Consolidated MIS Reporting,” says Amit Trivedi, Director, Mondial IT.

The goal of EAM solutions, which helps identify key assets & their location, schedule equipment repair and determine maintenance strategies, is to enable managers to control and proactively optimize operations for quality and efficiency. Mondial offers Infor Enterprise Asset Management (EAM) that addresses management of work, material, energy, staff performance, and asset concerns that face every organization. EAM, being the most configurable enterprise-grade asset management solution in the market gives the ability to improve

capital asset management in ways that increase reliability, enhance predictive maintenance, ensure regulatory compliance, reduce energy usage, and support sustainability initiatives.

EAM Enterprise puts built-in predictive maintenance (PDM) and condition-based

maintenance (CBM) to work for the customer, along with intelligent operations & asset sustainability capabilities without incurring the costs, complexity, and uncertainty of third-party software. It delivers equipment alerts, as well as real-time intelligence that one needs to take quick and precise action, and escalate problems, to the appropriate resources.

With customers like Adlabs Imagica, ACCOR Hotels, HDFC Securities, Motilal Oswal Financial Services Ltd, All Cargo Logistics, BSE Ltd, Raymond and customers from diverse industries, Mondial intends to become a premier IT Consulting Organisation, by setting new standards of excellence without compromising with values to serve the clients globally.

Implementing Infor dEPM to Catalyze Business Performance

Mondial is the Channel partner of Infor, which is the world's third-largest supplier of enterprise applications & services, helping more than 70,000 large & mid-sized companies improve operations and drive growth across numerous industry sectors. The speed, complexity, and global nature of today's business environment put forth challenges for even the best-managed organizations. What really is required is a firm control over one's financial reporting and disclosure processes to provide more information to satisfy the requirements of regulators, shareholders, and other stakeholders. Closely in context to these requirements, Infor dEPM by Mondial helps organization plan, monitor, and improve financial performance. It gives quick answers about business performance from a single solution, which enables to manage organization's budgeting, forecasting, financial consolidation, and strategic planning processes; report & analyze results at all levels of the organization.

The Directors of the company have a combined experience of 70+ Man-Years in IT Consultancy and Implementation including Mr. Amit Trivedi who had his stint with Big 4 Consulting in past and with 20+ years of experience in Enterprise Solutions implementation. The team of Mondial consists of Chartered Accountants, MBAs' & Engineers. 

Amit Trivedi,
Director
