

Infor Approva Continuous Monitoring

Get new capabilities with Infor 10x

Extend the value of your Infor™ solution and take advantage of technologies that can change the way you work with Infor 10x, the latest release of Infor's proven business applications. You get access to new capabilities in the areas of social business, mobility, analytics, and integration. You also benefit from major enhancements across Infor's core product lines, including Infor Approva Continuous Monitoring.

Experience the new Infor Approva

Get broader insight across your organization, improve your ability to industry-specific regulatory requirements, and monitor your business anytime from anywhere with the latest release of Infor Approva Continuous Monitoring, which expands the core capabilities of this solution in a number of key ways, including:

- **New capabilities in the areas of violation and exception analytics** that give you additional insight into potential risks and improved analytics across your business.
- **New mobile and improved exception browser interfaces** that give you flexible options for monitoring your business anytime, from anywhere.
- **Vertical market enhancements** that address industry specific regulatory and compliance requirements.

Infor 10x represents the evolution of our technology platform, which features purpose-built middleware, as well as social, mobile, analytics, and cloud solutions.

- **New OFAC insight** for regulatory compliance across multiple systems for industries that purchase or sell products to foreign entities.

Increase the value of your solution and make the most of your maintenance investment by upgrading you Infor Approva Continuous Monitoring solution.
